

The Twentieth day of April, 1660.

A true Report of the great number of poor Children  
and other poor People maintained in the several Hospitals by the  
pious care of the Lord-Mayor, Commonalty and  
Citizens of the City of LONDON.

	Children put forth Apprentices, and discharged out of <i>Christ Hospital</i> the year last past	137
	Children buried the said year	26
	Children now remaining under the Care and Charge of the said Hospital (with those lately admitted) which are kept in the House and divers places in London and suburbs thereof, and at nurse in the Countrey One thousand one hundred and fifteen	1115

The names of all which are Registred in the Books kept in the said Hospital, and are there to be seen from what Parishes they have been from time to time admitted.

The number being so many, and the charges of keeping them so great, It is hoped several well affected persons will freely contribute towards the maintenance of them, the certain Renew of the said Hospital being little more then the Moytie of the necessary Charges thereof.

There hath been Cured this year last past, at the Charge of <i>S<sup>t</sup> Bartholomews Hospital</i> , of maimed Souldiers, Seamen and other diseased Persons, many whereof being Souldiers and Seamen, have been relieved with money and other necessaries at their departure	1453
Buried this year after much charge in their sickness	260
Remaining under Cure at this present, at the charge of the said Hospital	287

There have been Cured at the charge of <i>S<sup>t</sup> Thomas Hospital</i> , this year last past, of diseased persons, whereof many (being Souldiers and Seamen) have been relieved with money and other necessaries at their departure	1238
Buried this year after much Charge in the time of their sickness	223
Remaining under cure at present, upon the Charge of the said Hospital	268

There hath been brought to the Hospital of <i>Bridewell</i> , within the space of one whole year last past of wandering Souldiers, and other Vagrant people, to the number of	990
Many whereof have been chargeable to the said Hospital, for Apparell and sick Dyet, besides the ordinary dyet, and other provisions and charges expended about them, which could not be avoided by reason of their necessities, and many of them have been passed into their native Countries with Clothing, Apparell and other charges, which could not be avoided, considering their naked and miserable condition, nor they thence passed without such charge. And there are now kept and maintained in the said Hospital in Arts and Occupations, and other useful & necessary works and labours, at the charge of the said Hospital, Apprentices, and other persons to the number of	155

The Hospital of *Bethlehem* is of great Antiquity, use and necessity, for keeping and curing distracted persons, who are of all others most miserable, by reason of their wants, both for soul and body, and have no sense thereof.

The charge thereof is very great, there being kept and maintained with Physick, Dyet, and other relief, 48. distracted persons constantly at least, besides the charge of servants to look to them, they being most unruly and not able to help themselves, and the Rents and Revenues of the said Hospital being very small, not amounting to two third parts of the yearly charge, and therefore this Hospital is a very fit object of charity, there having been and daily are by the blessing of God, upon the charge of the said Hospital, and the care of those that are intrusted with the said distracted people, divers reduced to their former senses. And there hath been Cured this last year of their Lunacy and delivered out of the same Hospital
